 Open to Remote Opportunities

OBJECTIVE

I aim to meaningfully shape system architecture and technical design to elevate end-user experiences. I thrive on understanding complex demands and crafting intelligent, effective solutions that make a real impact.

PROFILE

Versatile and driven professional with a strong foundation in system design and cross-functional collaboration. I bring energy, initiative, and ingenuity to my work, striving for excellence through critical thinking and a passion for learning. My background spans software engineering and diverse roles, enhancing my adaptability and resilience. I am excited by the prospect of expanding my experience with AI tools and exploring new areas in the tech industry.

CORE SKILLS

- **Languages & Frameworks:** Java (advanced), Python, C++, SQL, JavaScript, React
- **Architecture & API Design:** RESTful API design, scalable SaaS architectures, API documentation
- **DevOps & Infrastructure:** Docker, Kubernetes, AWS, Flyway, CI/CD, Prometheus
- **Testing & Code Quality:** JUnit, Mockito, contract testing, code reviews, continuous refactoring
- **Interpersonal & Collaboration:** Clear communicator, adaptable learner, inclusive team player, Jira, Confluence

TECHNICAL EXPERIENCE

Sales and Operations Support – *Wild Kiwi, Auckland*

November 2025 - April 2026

- **AI Integration:** Implemented workflows and AI tools in a small business context, enhancing operational efficiency.
- **AI Chatbot Development:** Tested and trained the CrispyChat AI bot through multiple versions, improving user experience and engagement.

Software Engineer – *Starling Bank, London*

March 2021 – Sept 2023

- **Backend API Development:** Designed and implemented backend APIs for Banking-as-a-Service partner onboarding, ensuring seamless integration and user experience.
- **SaaS API Architecture:** Architected the SaaS API template for commercial offerings, prioritising modularity and clarity, which streamlined future development efforts.
- **Rule Engine Optimisation:** Redesigned Rule Engine for fraud detection, adding dynamic configuration capabilities and scalability to enhance the system's effectiveness.

- **Cross-Functional Collaboration:** Worked closely with product, compliance, and partner teams to ensure alignment and deliver solutions that met diverse stakeholder needs.
- **Tech Stack:** Java, Guice, Docker, React, Flyway, PostgreSQL, Sentry, Instana, Grafana, Humio, GitHub.

Software Engineer – *Lloyds Banking Group, London*
July 2019 – Oct 2020

- **Fraud Detection Microservices:** Developed and integrated microservices for fraud detection, significantly enhancing the security of legacy systems.
- **Dynamic Tool Development:** Led backend development of a custom switch service and a dynamic data mapping tool, improving operational efficiency.
- **Agile Methodologies:** Collaborated in agile teams, participating in sprint planning, daily stand-ups, and retrospectives to drive continuous improvement.
- **Tech Stack:** Java, Spring, Docker, Hibernate, GitHub, Jira.

Graduate Intern – *General Dynamics Land Systems, Cardiff*
Aug 2018 – Dec 2018

- Designed an accessible adjustable pressure valve for armoured vehicles, contributing to improved vehicle performance and safety.
- Contributed to technical documentation and supported field operations, enhancing team collaboration and project execution.

Remote Researcher – *University of Auckland*
Sept 2018

- Contributed to AI model development for a reinforcement learning project focused on post-surgery recovery, enhancing my understanding of machine learning applications.

EDUCATION

MEng Mechanical Engineering – *Cardiff University, UK*
2014 – 2018 | 2:1

- Team Lead of final year project on autonomous LEGO mini-factory.

A-Levels – *King's School Canterbury*

Maths (A*), Further Maths (B), Physics (B), Chemistry (A)

INITIATIVES & INTERESTS

Community Initiatives: Founder of Lloyds Wellbeing Hub; co-chair of Race & Ethnicity Network at Starling, promoting inclusivity and open discussions.

Volunteering: Engaged with Drive Forward Foundation, Macmillan coffee mornings, and various international projects, enhancing community connections.

Creative Pursuits: Passionate about painting, knitting, pottery, and writing, fostering creativity in personal and professional life.

Adventurous Spirit: Ultra-marathon runner, advanced scuba diver, and solo NZ road-tripper, embodying a love for exploration and challenge.
